RE: Port Republic School Computer Installation

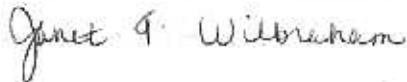

Dear Mr. Thomas and Mr. Howell,

Thank you very much for the computer installation of our Technology lab and various classroom computers. It was a great pleasure to work with such thorough and efficient professionals.

The Dell computers are working exceptionally well. The students are already using them and have now been scheduled for a Technology class every other day; something that was not feasible with the computers that you replaced.

Thank you again for such a wonderful and fluid installation process. We look forward to continuing a working relationship with you and your company.

Educationally yours,

Janet T. Wilbraham
Superintendent
